

WE NEED DEMOCRACY TO WORK

The first session of the 118th Congress stands out as a year of abject legislative failure. It was a year of squandered opportunity, petty infighting, and deep frustration. The norms of the system — civility and goodwill at minimum to members of one’s own party — have vanished. The problem did not start this year; rather, institutional norms have slowly eroded dating back to the speakership of Newt Gingrich and the government shutdowns of 1995 and 1996. The Trump administration accelerated this decay in Washington leading directly to the insurrection of January 6 and an attempted overthrow of the 2020 election.

In the GOP-controlled House of Representatives, we most clearly see the schism in the Republican party — between institutionalists, who respect traditional norms and recognize the need to compromise, and radicals, who view compromise as weakness and act with little regard for the institution or their fellow Republicans. Then-Speaker McCarthy lost his speakership as a direct result of passing a bipartisan continuing resolution with the support of Democrats in September. Compromise is the enemy for House conservatives, regardless of the chaos that would result from policy failure. Chaos is a key tactic and desired outcome.

It is worth noting that these radical members are working very closely with former President Trump in the lead-up to the 2024 election. Many are on record as election deniers and supporters of the insurrection. The former president urged these House Republicans to replace McCarthy in

September, ultimately praising the nomination of ally Rep. Mike Johnson — who led the effort in the House to reverse Trump’s 2020 election loss.

The first session of a new Congress is typically when work gets done before the election cycle begins. Unlike previous congressional terms, the 2024 elections have been front and center in the House from day one. House legislative efforts have relentlessly attacked immigrants and U.S. asylum laws, voting rights, and the LGBTQ+ community. There have been calls for book bans and ending diversity initiatives, attacks on the Internal Revenue Service as they actively work to ensure wealthy taxpayers pay their taxes, and drastic cuts on all key anti-poverty programs including WIC, SNAP, healthcare, Social Security, Title One school funding, housing vouchers, and so much more.

House conservatives herald cuts to poverty programs as necessary austerity measures. The great irony is that the same House conservatives proposing to take food from babies are poised to spend billions of dollars for more tax cuts for the wealthy and corporations on top of the \$2 trillion spent under President Trump’s Tax Cuts and Jobs Act passed in 2017.

Congress, due to inaction in the House, has pushed all decisions on major legislation into 2024, making this the most non-productive, dysfunctional Congress in the modern era. The House of Representatives completely failed in their responsibility to the American people. As always, the high cost of inaction falls hardest on the most vulnerable among us.

SENATE VOTES

1 Disapproval Resolution of the District of Columbia Council Action in Approving the Revised Criminal Code Act (H.J. Resolution 26) – Vote #49

This joint resolution disapproves the District of Columbia's Council approval of the Revised Criminal Code Act of 2022. The Revised Criminal Code Act of 2022 (RCCA) is the product of 16 years of research, an expert commission, 51 public meetings, extensive public feedback, and robust negotiation. The RCCA is a comprehensive revision of D.C.'s 122-year-old criminal code aimed primarily at modernization, including a few significant reforms.

Passed 81-14, March 8, 2023; enacted March 20 as Public Law No: 118-1

2 Fiscal Responsibility Act (H.R.3746) – Vote #146

This bill enacted a compromise reached by House Republicans and President Biden to avert an impending fiscal crisis related to the statutory debt limit. In exchange for the continued solvency of the federal government sought by Democrats, Republicans secured across-the-board cuts to federal spending, ending Biden's suspension of student loan repayments, adding new work requirements for SNAP and TANF, reinstating the statutory debt limit after the 2024 elections, and more.

Passed 63-36, June 1, 2023; enacted June 3 as Public Law No: 118-5

3 Continuing Appropriations and Other Extensions Act (H.R.5860) – Vote #247

The continuing resolution (CR) prevented an October 2023 government shutdown, providing government funding through November 17, 2023. It also provided emergency funding for disaster relief and extended several immigration-related programs. It extended several expiring programs and authorities affecting many of our organizational priority areas, including the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), several Federal Aviation Administration programs, Federal Drug Administration user fees for animal drug applications, and several public health and hunger remediation programs.

Passed 88-9 on September 30, 2023; enacted September 30 as Public Law No: 118-15

4 Further Continuing Appropriations and Other Extensions Act (H.R.6363) – Vote #312

With a “laddered approach” to funding expiration dates in 2024 spearheaded by Speaker Johnson to avoid a second government shutdown, this legislation provides continuing funding for federal agencies. The act also extends several expiring programs and authorities, including programs authorized by the 2018 Farm Bill and several public health programs. The first deadline is Jan. 19, 2024, when funding for agencies covered by the Agriculture, Energy-Water, Military Construction-VA and Transportation-HUD bill expire. Funding for all other agencies expires Feb. 2, 2024.

Passed 87-11 November 15, 2023; enacted on November 16 and became Public Law No: 118-22

ACTIONS TAKEN BY THE BIDEN ADMINISTRATION

Despite the lack of accomplishments in Congress in 2023, NETWORK's Build Anew agenda still made progress — on the strength of the Biden administration's steady efforts to use its executive and regulatory authority to protect our nation's most vulnerable communities. Here are a few examples:

- Lifting families out of poverty. NETWORK voiced its support to proposed regulations to
 - Extend access to overtime pay to hundreds of thousands of workers in low-paying jobs
 - Demand minimum staffing levels in Medicaid and Medicare-funded nursing homes to make them safer for residents and workers alike.
- Humane immigration policies. Other Biden administration regulatory efforts
 - Overturned malicious Trump regulations that punished immigrants for accepting federal benefits to which they were legally entitled
 - Will guarantee protections for farmworkers and other temporary foreign workers with H-1 and 2 visas.
- Advancing environmental justice. The Administration tackled environmental wrongs that especially harm Black, Brown, Native American and other struggling communities, with actions to
 - Reduce children's lead exposure
 - Again reversing terrible Trump era rules, limit mercury pollution that especially harms pregnant individuals
 - Remove copper and lead from drinking water.
- Economic security for vulnerable people. Other 2023 Administration executive actions will
 - Expand student debt relief
 - Curtail junk fees in health, banking, and travel
 - Reduce prescription drug prices.

NE: Member resigned from office on January 8, 2023. Gov. Pillen appointed Pete Ricketts as replacement on January 12.

HOUSE VOTES

1 Disapproval Resolution of the District of Columbia Council Action in Approving the Revised Criminal Code Act (H.J. Resolution 26) – Vote #119

This joint resolution disapproves the District of Columbia's Council approval of the Revised Criminal Code Act of 2022 (RCAA). The RCCA is the product of years of research, an expert commission, public meetings, extensive public feedback, and robust negotiation. It is a comprehensive revision of D.C.'s 122-year-old criminal code aimed primarily at modernization.

Passed 250-173, February 9; enacted March 20 as Public Law No: 118-1

2 Secure the Border Act (H.R.2) – Vote #209

This bill would have made significant changes to asylum law, including imposing limits on asylum eligibility and requiring employers to use an electronic system to verify the employment eligibility of new employees. H.R. 2 separates families at the border and would hold unaccompanied children in jail-like conditions. It criminalizes immigrant children and their families, and harms faith-based organizations by restricting their ability to serve.

Failed 219-213, September 29 (in original CR attempt, associated to H.R.1163 – Protecting Taxpayers and Victims of Unemployment Fraud Act by H.R.383)

3 Fiscal Responsibility Act (H.R.3726) – Vote #243

This bill enacted a compromise reached by House Republicans and President Biden to avert a fiscal crisis related to the statutory debt limit. In exchange for the continued solvency of the federal government, Republicans secured across-the-board cuts to federal spending, ending Biden's suspension of student loan repayments, adding new work requirements for SNAP and TANF, reinstating the statutory debt limit after the 2024 elections, and more.

Passed 314-117, May 31; enacted June 3 as Public Law No: 118-5

4 Department of Homeland Security Appropriations Act (H.R.4367) – Vote #505

Appropriations for the Department of Homeland Security for the fiscal year 2024 would provide \$62.8 billion in base discretionary funds, which is \$2.1 billion more than 2023. This bill would eliminate temporary fixes to asylum programs, increase patrols, detentions, and deportations across the US-Mexico border, as well as mandatory GPS monitoring of immigrants. It resurrects construction of the failed border wall, slashes funding for humanitarian programs and the Family Reunification Task Force, and removes oversight for immigrant detention facilities. The bill also defunds all diversity, equity, and inclusion efforts within DHS and rejects funding for emergency shelters and processing centers.

Passed 220-208, September 28

5 Agriculture, Rural Development, Food and Drug Administration, and Related Agencies Appropriations Act (H.R.4368) – Vote #507

Appropriations for Agriculture, Rural Development, Food and Drug Administration, and Related Agencies programs for fiscal year 2024. The bill would have cut domestic spending to levels well below the Fiscal Responsibility Act (FRA) agreement and endangered critical services for the American people. It would have drastically cut funding for WIC, preventing women, infants, and children from receiving the nutrition they need. It would have threatened the health and safety of Lesbian, Gay, Bisexual, Transgender, Queer, and Intersex Americans, and allowed discrimination against same-sex married partners. It would have hindered climate change clean energy and efficiency initiatives, especially in rural areas. And finally, it would have prevented the Administration from promoting diversity, equity, and inclusion programs.

Failed 191-237, September 28

6 Continuing Appropriations and Other Extensions Act (H.R.5860) – Vote #513

The continuing resolution (CR) prevented an October 2023 government shutdown, providing government funding through November 17, 2023. It also provided emergency funding for disaster relief and extended several immigration-related programs. It extended several expiring programs and authorities affecting many of our organizational priority areas, including the Special Supplemental Nutrition Program for Women, Infants, and Children (WIC), several Federal Aviation Administration programs, Federal Drug Administration user fees for animal drug applications, and several public health and hunger remediation programs.

Passed 335-91, September 30; enacted September 30 as Public Law No: 118-15

7 Further Continuing Appropriations and Other Extensions Act (H.R.6363) – Vote #658

With a "laddered approach" to funding expiration dates in 2024 spearheaded by Speaker Johnson to avoid a second government shutdown, this legislation provides continuing funding for federal agencies. The act also extends several expiring programs and authorities, including programs authorized by the 2018 Farm Bill and several public health programs. The first funding deadline is Jan. 19, 2024, when funding for agencies covered by the Agriculture, Energy-Water, Military Construction-VA and Transportation-HUD bills expire. Funding for all other agencies expires Feb. 2, 2024.

Passed 336-95, November 14; enacted November 16 as Public Law No: 118-22

Ronnate Asirwatham of NETWORK Government Relations; Sr. Susan Wilcox, CSJ; Julia Morris of NETWORK Communications; Chelsea Puckett of NETWORK Grassroots Mobilization; Sr. Alicia Zapata, RSM; and Sr. Karen Burke, CSJ visit Capitol Hill to deliver a sign-on letter on immigration in September. *Photo: Catherine Gillette*

NETWORK

ADVOCATES FOR JUSTICE, INSPIRED BY CATHOLIC SISTERS

Founded by Catholic Sisters in 1972, in the spirit of the Second Vatican Council, NETWORK is an inclusive, national, Catholic advocacy organization open to all who share our values, working to achieve equity and justice for everyone. Grounded in Gospel values and the Catholic social justice tradition, NETWORK transforms our society by shaping federal policies that achieve racial, economic, and social justice; serve the common good; and honor the dignity of all.
