

WHY ARE FOOD PRICES SO HIGH?

Food prices are up 20% in the last two years!

What's the real reason for inflation?

\$ CORPORATE GREED

While many of us struggle to feed ourselves and our families...

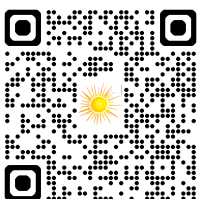

- By mid-2022, the majority of the increase in food prices was the direct result of corporate profiteering.
- Big corporations made **\$2.5 trillion** in profits in 2021, their most profitable year since 1950 —**and still corporate food executives raised the prices of our groceries!**
- Corporate food CEO salaries averaged \$22 million in 2022—**almost 1,000 times the average food worker's earnings.**

THIS IS A MORAL ISSUE.

Catholic Social Justice affirms that every person has a fundamental right to nutritious food.

No matter where we live or what's in our wallets, we all deserve to be free of hunger.

FOOD PRICES: WHAT CAN WE DO?

Together, we will ensure that Congress supports affordable, good food for us and our families.

1. Ask your candidates and elected officials...

Will they **stop rewarding wealthy corporate executives** at our expense, and stop them from price-gouging our groceries?

Will they **fully fund food assistance programs**, including SNAP, WIC, school lunches, elderly meals, soup kitchens, and food banks?

2. VOTE for our freedom from hunger!

Scan this QR code to:

- Check your voter registration status, **make a voting plan**, and more
- Learn about the **issues** at stake
- Access **toolkits and resources for getting involved** and spreading the word about multi-issue voting for the common good!
