

GEN Z VOTERS

LET'S MAKE OUR VOICES HEARD

Over 40 million of us can vote in the 2024 election.
We turned out in high numbers in 2020 & 2022.
13+ million young voters influenced critical 2022 races!

We will use our ballots to vote our future so our elected leaders know they must address the issues we care about: affordable housing, health care, education, and more.

Together, we will make change!

Take Action

OUR LIVES, OUR ISSUES

Fact-checked by NETWORK Advocates

HOUSING

Rents have skyrocketed by 26% since 2020, eating up bigger portions of our incomes. Most of us can't even fathom owning a home.

The Biden-Harris administration budgeted supports for affordable housing, rent, and first-time homeowners. We will vote for leaders in Congress who will allocate the funds!

HEALTH CARE

The Affordable Care Act (ACA) requires family health plans to keep us on through age 26, offer mental health benefits, and cover people with "pre-existing conditions" like asthma.

The Biden-Harris administration led legislation that lowered costs for ACA enrollees. But some GOP lawmakers are attacking the ACA, and those lower costs will expire in 2025 unless Congress acts!

STUDENT LOANS

More than 45 million of us owe a collective \$1.6 TRILLION in student loans.

The Biden-Harris administration granted relief to millions of borrowers, but was blocked by the courts. We will elect leaders in Congress who will act for our futures!

We are burdened with way higher costs for housing, health care, and education than previous generations were. **But it doesn't have to be this way.**

Together, we will ensure access to the things we all need to thrive!
